A NEW DISCOVERY
IN THE VEGETABLE KINGDOM.
BY DR. BONAUD, of Marseilles. By means of this newly discovered Medicine, every kind of Sickness which afflicts the human body may be cured. By its perfect harmony with the animal mechanism of man, it becomes an efficacious remedy—an antidote against all kinds of accidents to which the body is subject.

The following is an explanation of its mode of operation. The active principle is the blood, which when it ceases to flow in its regular action causes sickness. As this medicine is a corrective of the blood, and as its tendency is to restore it always to its natural state, every disease is, therefore, controlled by its power. It contains no mineral ingredient; it is a vegetable substance, whatever, but is purely vegetable in its character. It is to be administered by doses according to the situation of the patient. Many have been restored to HEALTH by the application of it.

Dr. Bonaud, the inventor, gives his patients advice gratis.

The unfortunate individual known by the name of Spybills and all others of the same family, are infallibly cured by the purification of the blood.

Apply for information to Dr. Bonaud, at his office Barrister's Hall, Court Square, near School street, Boston, at 9 o'clock a.m., and 4 p.m.

SPECIFIC COMPOSITION.—No mineral or corrosive substance, neither any kind of irritating poison is contained in this remedy, but it is exclusively formed by a combination of simples obtained from the double influence of vegetable life and chemical action.

Persons pronounced incurable, or those who are given over by their physicians, by having recourse to Dr. B. will often find surprising benefit.

TO THE PUBLIC.

Boston.
About three months since my child, then three years and 17 months old, was taken ill with a disease of pain in the stomach and light vomiting. In a day or two after she complained of pain in the head. I then applied to one of the first physicians in the city, and asked his advice. After attending the child three or four days, I was told by him that her complaint was dropsey in the head. After applying leeches, blistering, bathing, &c. and holding consultation with a celebrated physician, he pronounced her complaints incurable. At this time she had lost her sight and speech and continued in this situation for 17 days, during which time she appeared in great distress attended with spasms. Having understood, by a friend, that there was a gentleman in the city by the name of Auguste Bonaud, who had recently arrived from Marseilles, and who had at that place performed many remarkable cures; I was induced to apply to him. He immediately came to see the child. He pronounced her complaints such that a cure might be effected, and proceeded to administer a potion which in the course of a few days, restored her sight and speech, and removed the spasms; and she now appears to enjoy perfect health.

J. FREDERICK GUSTUS,
MARY RAND,

L. E. JEWETT,
PETER LAWRENCE.

For the good and comfort of my fellow creatures I shall inform them, that 7 years since I was afflicted with a nervous sickness, accompanied with liver complaint, which deprived me of sleep and appetite. At this time I called on Dr. Bonaud, who administered to me his medicine, and caused a great improvement in my health.

MARY HANNAH GODDARD, Roxbury.

For the comfort of mankind, I wish to publish the marvelous effects of Dr. Bonaud's Vegetable Medicine.

A chronic inflammation in the chest deprives me of my health, and put me in a painful and dangerous situation. Having understood of Dr. Bonaud's numerous cures I called on him, and after taking three doses of his medicine, I recovered my health and natural strength.

JOHN WHITEHEAD, No 17 North Square.

My obligations to Dr. Bonaud for the good which I have received from him, make me desirous of making them known to the public. I was very low from the ravages of an inflammation of the bowels, united with fever. At this time I called on Dr. Bonaud to my assistance, and three doses of his excellent medicine were sufficient to restore me to health, and enable me to recommend my occupations.

DAVID MEALVIN, No 3 Langdon Place

About 4 months ago, being on board the brig Diante, (master) coming from the East Indies, I was very ill. I had lost my appetite, accompanied with a daily fever. I was so ill that I did not know how to be cured. I was in that bad state when I arrived in Boston; I had been a boarder of Mr Gustus, who told me that his daughter had been cured by Dr. B. I called him instantly, put myself under his care, and after ten doses of his medicine, took in 20 days, I was perfectly cured.

WILLIAM STOKMAR.

My three children were attacked at the same time very severely by the same disease, and I began to despair of their recovery, when I fortunately availed myself of the assistance of Dr. Bonaud, who, having administered his medicine, in a short period they recovered entirely from their sickness.

J. GULLING, No 7 Langdon Place.

My daughter, aged 24 years, was attacked by a violent fever which in a very short time reduced her to a very deplorable situation. In this extremity I called upon Dr. Bonaud to succor her; and by his administration of his valuable remedies, she was in eight days restored from sickness to health.

MARY B. DOLLIVER, No 36 Salem st.

During the last four months I was very ill, and was attended by the best physicians of Philadelphia. After having submitted myself to them, I rec'd without any improvement of my health, they ordered me to travel to Boston, where having heard of the good effects of Dr. Bonaud's medicine, I called upon him, and after taking one dose of the above in dicine, I was perfectly well and returned home.

MR MARTIN, 36 Salem street.

Boston, Commercial street.

About 3 months ago my son, was affected with inflammation of the chest, with several cancers on the mouth, with 10 days Dr. Bonaud's treatment have been sufficient to procure him a perfect health.

Dr. Bonaud—Sir: For the good of my fellow citizens, I wish to write you this, with the request that you will publish it—the great obligation you have conferred on me because of the saving cure of my daughter, who was taken ill with a brain fever, and your miraculous medicine cured in a short time, will always make me extremely grateful to you.

With respect,
MEITABBLE JOHNSON, No 4 Langdon Place.

The astonished effects which your medicine has accomplished, cause me to write this to you as a testimonial of my gratitude. After taking three doses of your medicine, I was perfectly cured of a festule which I had had 3 months on the right breast.

I pray you to receive this in gratitope for the good I have received from you.

ZORADA BALDRIDGE, Cheshire-st.

Our daughter, 9 months old, was taken sick with convulsions; after 4 days severe illness, and having but little hope of her recovery in this state of illness, we saw Dr. Bonaud's notice. We can led on him—he gave her his medicine, and after 8 days of his attendance, she enjoys good health.

Boston.

Last Saturday, the 13th, my child, aged 5 years and 1 month old, was taken very suddenly with apoplexy, and inflammation through the system, and complained of a great deal of pain and distress. Saturday afternoon about 6 o'clock she was taken in a violent fit, and was senseless for more than two hours. I then sent for Dr. Bonaud, by the advice of my friends. She took his medicine, and in 6 days she was about the chamber. I would advise the public to patronize him with safety.

BOSTON MORNING POST.

WEDNESDAY, OCTOBER 18, 1837.

WARD MEETINGS—ATTENTION!

THE DEMOCRATIC CITIZENS OF EAST BOSTON are requested to meet at the Pulaski House, at 7 o'clock, THIS EVENING, for the purpose of electing six individuals to compose a Ward Committee:

OF CHELSEA, at Taft's, same time.

For order of the County Committee.

PETER DUNBAR, Chairman.

S. J. THOMAS, Secretary.

Elections.—As far as heard from, the popular vote in Pennsylvania exhibits a democratic gain of 304. The result of Assembly men, as reported from all the districts in the State except eight, give the democrats 52, and the federalists 36 members. The remaining districts last year chose 5 democrats and 7 federalists. Supposing them to return the same this year, the two parties will stand in the Assembly, democrats 57, federalists 43—democratic loss 15. Which party will predominate in the Senate, is yet undetermined.

Ohio.—In Hamilton County, which includes Cincinnati, the federal ticket for Senate and Assembly, has been elected—last year the democrats succeeded in choosing theirs. In Franklin and Pickaway, and Muskingum Counties, 2 federal and two democratic Senators have been chosen—there are 17 Senators to be heard from. Returns of the election of only 11 Assembly men have been received—these are federalists. The Globe of Saturday night, however, gives us something more gratifying in the following paragraph:—

“Ohio.—This evening’s “Express Mail” brought us returns from fifteen counties, in all of which there is a democratic gain, except in Pickaway and Hamilton counties. We have not time to give details.”

Georgia.—The majority of Gilmer (State Rights) for Governor, in 85 counties is 1344. Five counties to be heard from, which last year gave Schley a majority of 437 votes. Legislature democratic.

“Never, we venture to say, was more talent displayed in our Senate during a session, than has been manifested within the past few weeks. As important state questions have been discussed during this period as ever have, or ever can, come before the country for its decision; and they have been met and argued, *pro and con*, with consummate ability—evincing a knowledge of the science of government, the possession of logical powers, of eloquence, and a readiness in debate, not surpassed, if equalled, by any deliberative assembly on the face of the globe. We speak not as *partisan*, but as an *American*—proud of the intellectual display made by our fellow countrymen—of the erudition, deep reflection, extensive observation, and masterly reasoning, of the giant minds of the AMERICAN SENATORS of 1837. The efforts of Wright, Buchanan, Rives, Benton, Calhoun, Hubbard, Brown, Webster, Walker, Preston, Niles, Tallmadge, Clay, and, indeed, nearly every one who engaged in the discussion of the Sub-Treasury Bill, are exhibitions of the highest mental order, and as such will reflect lasting honor upon the genius of our National Legislature.”

The atrocities of Lynchism are still in fearful practice at Vicksburg. The Sentinel of that place of the 28th ult. gives an account of the seizure and cruel treatment of an old man by the name of Grace, for giving “free passes” to negroes. This old man had been carried before a magistrate and discharged; when a mob of Lynchers took him forcibly from the possession of the Marshal, stripped him, and gave him a severe flogging, and that too, “within hearing of the lamentations and shrieks of his afflicted wife and children.” The same paper gives the details of several other illegal acts, of a similar barbarity. A respectable planter was drawn from the bosom of his family and abused in a most brutal manner. The savage Lynchers maimed him most inhumanely, besides cutting off his nose and ears, and scarring his body to the very ribs. Such wretches are fit only to dwell in Pandemonium.

The exercises of the Mercantile Library Association are favorably spoken of by those who attend. Young men of good moral character, and arrived at sixteen years of age, engaged in mercantile pursuits, may avail themselves of the advantages of this useful association, by signing the constitution and paying annually into the treasury the sum of two dollars.

The Opposition used to attribute, at one time, a large number of the suicides committed, to the distress brought on, as they said, by the removal of the deposits—now, we suppose, people will cut their throats because Congress has passed the Treasury Note Bill, for the purpose of relieving commercial embarrassment.

A fellow was imprisoned in Philadelphia, a day or two since, for stealing a newspaper—if all those were jugged here, who steal the Post, the city would be obliged to enlarge the jail. Thieves are men of taste, generally—once in a while one takes the Transcript, but he soon returns it, usually.

A Good Idea.—The last American Monthly, in its political disquisitions advances one good idea. It says that rather than for Congress to have lavished the time and money of their constituents so regardlessly, in the time consumed in the election of a printer, they ought to have elected Mr F. P. Blair of the *Globe*, by acclamation.

Mr Duran's book exposes the fallacy of the “Science” of Animal Magnetism completely—shows up the ridiculous pretensions of the “professors” and the egregious stupidity of their followers and dupes, in a manner that will make them hide their heads for shame, if they have a grain of sensibility left.

Mr Stephen Whitmore, Jr. of Salem, has been appointed Superintendent of the U. S. Rope Walk in the Navy Yard, Charlestown—and Mr Stephen Hoyt, Jr. of the same place has been appointed one of the Custom House Inspectors, in this city.

A Horse in Hot Water.—A dilapidated horse was recently run down by a locomotive on the Morristown railroad—an appendage of the locomotive was broken off by the obstruction, and poor horsey was deluged with hot water.

The Ladies will find a description of the latest Parisian and London Fashions under a beautiful little scrap of poetry, which they will read with delight, on the First Page.

The last Salt River Journal looked as if it was just out of a smoke-house. We presume they have a large *smoker* up yonder, where they smoke emigrant whigs before admitting them to a permanent residence.

The Vermont Editors are all getting married—he of the Patriot, and he of the Gazette, have already done the deed, and several others hold it in contemplation.

NEW SYSTEM OF BANKING.

Some one, it seems, has devised a new system of banking, and ushered it to the world in the dignified dress of a pamphlet. I have not read the *brochure*, but have merely seen a summary of the plan, in an extract, copied into one of the newspapers. From this specimen, I have no curiosity to see the rest. It is evident to me, that the author is a mere *theorist*, a closet banker, without practice or experience, and, I fear, without an adequate knowledge even of the *theory* of banking. Perhaps what I considered an improper mode of examination, by Mr P.

The Divisionary Corps of Independent Cadets will celebrate their ninety-sixth anniversary to-morrow. The corps will partake of a collation in the forenoon, at the mansion of Gov. Everett, and dine in the afternoon at Mount Washington House, accompanied by His Excellency and suite.

“We see it stated in one of our exchange papers that Count Castelnau, the celebrated European Naturalist, intends shortly to leave Paris on a visit to the United States. We have too many *Counts* here already.”—*Baltimore Sun.*

We have many it is true, but in the United States they *Count* nothing.

Here’s the way a Red River Roarer makes an oath—“By the sharpest boned, hardest trotter, burst shirt, and ragged razor.”

A Sensible Horsewhip.—A Mississippi paper speaks of a man “with whose bare hide a horsewhip would be loath to come in contact.”

A Thriving Country.—Girls in Ohio weigh 280 pounds, some of them, at fifteen years of age!

CONGRESS.

In the Senate—**Saturday Oct. 14.**—The bill making appropriations for the current expenses of government, the pay of members of Congress, &c. &c. was taken up.

The appropriation for the Smithsonian agency was reduced to \$5,000, instead of \$10,000—and the bill in that form was passed. The bill appropriating \$1,600,000 for the Florida war, was also passed.

The Senate met at half past four, but had nothing to do until the House sent them these appropriation bills, which they speedily passed.

Twelve o'clock.—The bill to settle with the depositors was then again taken up and passed. The Senate discussed it nearly an hour, and sent it back to the House with two amendments.

The Senate adjourned at half past one o'clock, Sunday morning.

In the House.—The Sub-Treasury bill was taken up without amendment, and, after a short debate, was, on motion of Mr S. Williams laid on the table, by a vote of ayes 120—nays 107. [All of the Massachusetts delegation, with the exception of Mr Carpenter, voted in favor of laying the bill on the table.]

Deposite Banks.—The House then went into committee of the Whole on the “bill providing for the adjustment of the remaining claims of the government with the late depositors banks.”

The subject was discussed at length, first as to whether and what interest the banks should pay, and the extent of time to be allowed to refund the public deposits.

Mr Adams opposed the bill, and went at large into an argument against it.

As soon as Mr Adams had concluded—Mr Cambreleng moved to lay the bill aside; agreed to.

The Committee then took up the “bill making further appropriations for the year 1837.”

Severe Gale at New Orleans.—The city of New Orleans and surrounding country, were visited by a dreadful storm on the 6th inst. The rain was very heavy, and the wind of exceeding violence. Four steamboats were driven on the shore and totally destroyed; the Merchant, Mobile, Columbia, and Pocahontas. Almost all the dwelling houses at the lake were either ruined or totally swept away. The railroad was inundated. A building at the entrance of the Bayou was blown down, and one man killed. A child of twelve years was drowned before the eyes of its mother. A hut occupied by four fishermen was carried away.

In New Orleans the front and columns of the Citizens’ Bank (not completed) were thrown down. The shipping suffered by loss of spars, rigging, &c. A steamboat was sunk. Many houses were injured. The cemetery was inundated. The crops on both sides of the river were much injured. All the marshes in the rear of the city were overflooded; and also many of the streets.—*New York Commercial Advertiser.*

The Directors of the Eastern Rail Road have received from the Commonwealth the first instalment of \$100,000 in Script, which the State Treasurer was authorised to issue for the benefit of this project, on certain conditions, by a law passed at the last session of the Legislature.—*Senate Gazette.*

Messrs Jones, Lows & Ball, have just finished a superb Silver Pitcher, together with six Cups, for the Lafayette Association, Ex-18—intended as a tribute of their respect to Wm. Barnicoat, Chief Engineer of the Boston Fire Department. The workmanship is of a superior taste, and may be examined at the above store.—*Herald.*

Accident.—Yesterday afternoon a lad about 10 years of age, fell through the stairway from the third story of the City Hotel, South Cove, and was seriously injured. He was taken up and conveyed home in a senseless state.—*Mercantile Journal.*

NORFOLK COUNTY CONVENTION.—The friends of the National Administration, in the several towns in the County, are invited to send Delegates to a convention to be held at White’s Hotel, in Bedham, on WEDNESDAY, the eighteenth day of October next, at 10 o'clock in the forenoon, to make nominations for the Senate.

ERASTUS WORTHINGTON, Chairman of the Democratic County Committee.

FISHER A. KINGSTURY, Chairman Anti-Masonic County Committee.
